

Next Generation Personal Water Filtration Device – the Project X Bottle Launches at Aquatech Amsterdam

Aqua-Nu Filtration Systems Ltd. (Ireland) has selected Aquatech Amsterdam 2011 to launch the first iteration of its next generation Personal Water Filtration device, the **Project X Bottle**. The device contains Aqua-Nu's internationally patented **Ultra High Flow Rate Ceramic Membrane** filtering up to 1.2 Litres of water per minute over 19.6 square centimetres at 100 millibar.

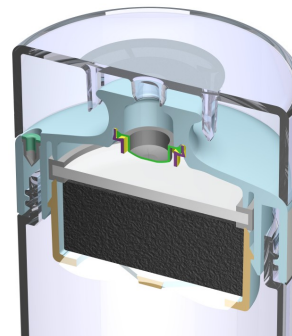

The Aqua-Nu ceramic membrane has been scientifically tested and independently certified to remove **Cryptosporidium 99.9999%, Giardia 99.9999% and Legionella 99.99%**, and many more harmful microbes [full list available at <http://www.aqua-nu.com/featured/removing-microbes/>]

The **Project X Bottle** system incorporates Aqua-Nu's own replaceable combined filter capsule and drinking spout design and removes **VOC's, THM's, BPA, HORMONES, PESTICIDES, HERBICIDES and CHLORINE** as well as many more dangerous organic materials found in drinking water today.

The **Project X Bottle** was designed by Aqua-Nu in response to worldwide growing demand for contemporary designed, eco conscious, affordable and durable personal water filtration devices dually suited to cross-over between urban and outdoor lifestyles. **Project X Bottle** is the first commercially available product to provide a continuous safe, clean supply of drinking water for personal use without any compromise in usage experience for consumers acquainted to the repeated purchasing of disposable plastic water bottles.

The **X Bottle** uses Aqua-Nu's Ultra High Flow Rate Ceramic Membrane to remove all harmful microbes and unwanted materials encountered and offers normal gravity based flow rates while being positioned for the consumer market below the important €19.99 euro retailing price point.

Aqua-Nu is seeking suitable Retail, Wholesale and Distribution partners to assist with worldwide Sales and Marketing of the **Project X Bottle**.

Aqua-Nu Filtration Systems Ltd. will be exhibiting at **Stand No. 05.127** at the Aquatech Amsterdam trade show from Nov 1st to Nov 4th. All Pre-show and Stand enquiries welcome.
